Kiwanis[®] CAREFREE

Kiwanis Club Welcomes New Member

John Dionne

A native of Arizona, John and his wife Kim moved to the Cave Creek area after the birth of their first child. Drawn to the area's natural beauty and variety of outdoor activities, they continued to grow their family and have embedded themselves into the community through John's involvement with Kiwanis.

"Children are the future," John stated, "so the work Kiwanis does to support the area's youth was a natural fit for me."

In his tenure as a Kiwanis member, John has led several technology advancements, including setting up virtual meetings during the pandemic and moving file storage and collaboration to the cloud for his committee. Looking towards the future, he stresses the importance of integrating technology and innovative thinking into the club to attract and retain younger members that want to contribute in different capacities while still in the workforce.

His most rewarding contribution so far was his work to charter a new Service Leadership Program "SLP" at Desert Sun Academy during the pandemic. The new K-Kids program was started with over a dozen elementary students across several grades. They served the community by hosting a donation drive, cleaned up the campus for earth day, elected their officers, and voted on several new projects to improve the community.

**"Volunteerism is Fulfilled at Kiwanis...
Come and be one of us!"**
